# Brexit and Chemicals Regulation

A Guide to Maintaining Mutual Market Access

## Key Topics

- Maintaining market access to the United Kingdom
- Brexit implications on the supply chain
- Timelines and requirements for registrations
- Data sharing
- How the roles of Only Representatives are affected

## Course Leader

Peter Douben, REACHwise

11 – 12 October 2021  
Berlin and online

presented by

## Roles under REACH and Potential Changes after the Brexit

**Know your role**

Start by identifying your role in the supply chain and your future connection to the EU and EEA market. Where and with whom you do business will determine how the withdrawal will affect you.

From the options below, select the role that describes your business and see how you can start preparing for the UK's withdrawal from the EU. If your situation does not fit any of these roles or you wish to know more, you can read all our Q&As under "Advice to companies / Q&As".

 <b>UK-based REACH registrant</b>	 <b>UK-based only representative</b>
 <b>UK-based manufacturer or supplier of substances under the BPR</b>	 <b>EU-based company</b>
 <b>UK-based authorisation holder under REACH</b>	 <b>EU downstream user of an authorised substance</b>
 <b>Manufacturer or formulator outside the EU/EEA</b>	

[echa.europa.eu/de/uk-withdrawal-from-the-eu](https://echa.europa.eu/de/uk-withdrawal-from-the-eu)

ECHA urges companies to know their role in the various supply chains in order to understand both REACH obligations and the potential impact by the Brexit. It is the starting point of their support section on the Brexit.

Similarly the UK's Health and Safety Executive in coordination with Defra provides information.

The workshop will consider the new circumstances from the viewpoint of EU based companies with UK connections in their supply chain, as well as for UK based companies with EU connections in their supply chain. At the same time especially the roles of Only Representatives become interesting for both jurisdictions as these can be significant. Therefore the consequences will be explored; this also applies to ORs for non-EU and non-UK manufacturers.

The structure of the workshop is quite simple but leads to substantial tasks within product stewardship to make sure current and upcoming obligations are met.

Though expectations in the political dimension need to be dampened it is also worth having a closer look at Defra, the UK's competent authority.

Defra is updating its website frequently with notes on how to prepare for access to the United Kingdom's market. This information also indicates to what extent UK's and the EU's chemicals regulation will not only be based on common principles but also how the core elements resemble each other.

- Roles under REACH (more or less currently but also in the future)
  - EU-based manufacturer and UK-based manufacturer
  - EU-based downstream user and EU-based downstream user
  - Only Representative for manufacturers and formulators
- Obligations under REACH and what can cause additional requirements
- Impact on classification and labelling
- How to collaborate with ORs
- Outline of the upcoming chemicals regulation for the United Kingdom

### Effects on Registrations, Evaluations, and Authorisations

The participants of the workshop will use the R, E, and A of REACH as a pattern to approach the checks they have to do in order to maintain their own portfolio. The workshop starts with the basic question on how to secure registrations in case the lead registrant is from the UK. How can registrations be transferred to EU based companies? What will the costs be? And will your role probably change to being an importer, and if so – what are the consequences?

It makes sense to compare scenarios and assess various options deriving from them. If lead registrants do not transfer registrations to EU based legal entities complex scenarios unfold. The workshop participants will also have a closer look at the business impact, including the total costs.

- What to do if your substance is registered by a legal entity in the UK?
- Data sharing issues
- Joint registrations with UK manufacturers
  - Letter of Access
  - Negotiations with registrants and consortia
- Obligations of importers
- Challenges with evaluations
- Authorisations by UK manufacturers
- Chemicals under the PIC regulation
- Business impact of changes

### Maintaining Market Access in the United Kingdom

Most companies will want to maintain their market access to the United Kingdom for obvious reasons. It's an educated guess that the United Kingdom's authorities will not reinvent the regulatory wheel. Still there are detailed questions to be dealt with: what data, what studies can be used for UK registrations?

The delegates will elaborate on timelines, documents, and costs related to maintaining their business in the UK. Finally, they will work out a brief guideline on checking and preparing the portfolio for the new UK chemicals regulation, emphasizing the synergies from REACH related data management.

- Data requirements for UK registrations
- Which data from EU registrations can (not) be used?
- Timelines and costs
- Dos and don'ts when working with Only Representatives
- Preparing the portfolio for the UK market: plan, do, check, act

## Events and Corona

Dear Madam, dear Sir,

while writing these lines Europe is still suffering from the pandemic threat of COVID19, and 2020 turns out to be the year where hardly anything can be predicted accurately. However, it is our wish to make transparent what we plan for our upcoming events.

In order to establish planning reliability for all of you involved – speakers, hotels, service providers, but most of all participants – a lead time of several months is required. Unfortunately, the dynamic rate of new infections is in conflict with even basic planning. We therefore plan hybrid events for the time being (probably we'll find out one day it is a quite long “for the time being”), offering both on site and online participation.

We have gained significant experiences with it in the meantime, and all of these are encouraging:

- Event locations and hotels have worked out concepts for safe events and intensified hygiene efforts, aiming at their guests' safety.
- We frequently run online conferences, stimulating both the transfer of knowledge and a productive dialogue between all participants. This can be done via chat functions and of course verbal input, complex discussions of multiple stakeholders included. In case of travel restrictions and any threat to your and our safety, the online event is the plan B we all can rely on to deliver the topic.

As all of you know – and the Brexit timeline illustrates that perfectly well – regulation hasn't slowed down due to COVID19. The industry has to implement a number of key regulatory requirements, while others are about to be prepared thoroughly. None of these timelines has been postponed because of COVID19.

However, truth be told we are looking forward to the time we'll be able to meet again with all of you in an untroubled environment. The transfer of information does work superbly, but in the long term there'd be something societal we'd be missing very, very much. Until then we thank you for your understanding.

Stay safe – best wishes from Berlin,

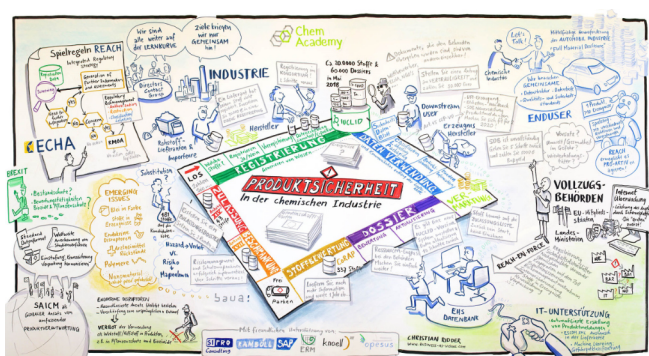

**Bjoern Nehls,**  
Director Chem-Academy

### About Us

**Chem-Academy** organizes conferences and seminars on current topics in the chemical and pharmaceutical industries. Our events are characterized by a high practical relevance and experienced speakers from the operational practice, authorities and the science. Our participants and speakers represent the entire spectrum of the chemical and pharmaceutical industry, i. e. manufacturers, the pharmaceutical and chemical traders, downstream users and service providers. The Chem-Academy deals with those questions that cannot be answered without further ado by helpdesks, the study of legal texts or other generally accessible means.

## Graphic Recordings

Download Graphic Recordings: [www.chem-academy.com/graphic-recording-produksicherheit](http://www.chem-academy.com/graphic-recording-produksicherheit)

Download Graphic Recording: [www.chem-academy.com/produksicherheit](http://www.chem-academy.com/produksicherheit)

Christian Ridder has been working as a business illustrator since 2013 and accompanies the events of the Chem Academy. He visualizes the presentations and discussions of the conference and draws up a visual protocol, at the same time he summarizes the complex task area in which you are active. The graphic recording will be made available to the participants as a poster after the event. You can find all previously visualized conferences on our website:

## Contact Us

Web chem-academy.com  
E-Mail info@chem-academy.com  
Post Chem-Academy  
Part of b2b-events.net  
Bahnhofsplatz 2, D-16321 Bernau bei Berlin

## Conference Venue

NH Collection Berlin Friedrichstrasse  
Friedrichstraße 96, D-10117 Berlin  
Phone +49 30 22 38 85 99  
Email nhcollectionberlinfriedrich@nh-hotels.com

Individual accommodation and travel are not included in the registration fee. Please arrange your own bookings respectively.

Besides an inquiry to the venue hotel we recommend to consult the common hotel reservation portals.

## Technical Requirements

For our online conferences we use Cisco WebEx (www.webex.com), one of the leading providers for online meetings. You will receive all helpful information on installation and implementation as well as the necessary access data from us via email.

### Terms and Conditions

- 1. Registration**  
Registration is confirmed in writing by the organisers. The registration fee covers attendance at the lectures for the number of days selected, full documentation, entrance to the exhibition area, lunch and refreshments. VAT has to be added. Important note in terms of late payment: As mentioned in the registration form all payments must be received within the due date given in the invoice. If you assume that your company is not able to manage payment in-time by bank transfer, please provide your credit card details in order to guarantee your booking. This helps to avoid any inconvenience upon your arrival at the event. At that time the full amount of the payment must be received in our accounts at latest. Thank you very much for your co-operation.
- 2. Cancellations**  
Cancellations of a registration by a delegate has to be received in writing at least 30 days prior to the event and will be subject to a service charge of 200 Euro. Substitutions are acceptable at any time. Where cancellations are received later, the registration fee remains payable in its entirety. In case the event has to be cancelled by the organiser payments already received will be credited for the following year's event.
- 3. Copyright**  
All material (documents, photos etc.) issued in connection with the events are copyrighted. Duplications and otherwise use must be authorised in writing by b2b-events.net. You may use personal cameras and video cameras for private use only. Professional photography and recording equipment are not permitted. With your attendance you consent to being photographed, filmed and recorded. Unless otherwise agreed with b2b-events.net, you consent to b2b-events.net and third parties using images and recordings of you for broadcast, publication and licensing without compensation or acknowledgement.
- 4. Liability**  
It may be necessary for reasons beyond the control of the organiser to alter the content or the timing of the programme or to cancel the event. The organiser of the event is not liable to pay any compensation or damages resulting from alteration, cancellation or postponement of the event. The organiser will do the utmost to inform the delegates of such modifications as early as possible, but is especially not liable if higher force or unforeseen incidences are affecting the meaningful implementation of the event. Force majeure includes: armed conflicts, civil strife, terrorist threats, natural disasters, political constraints, significant influence of transport, etc.
- 5. Data Protection**  
The organiser gathers and processes data in accordance with data protection laws. Your data is stored electronically for the purpose of future updates of our services. If you wish your data to be amended, removed or not passed to an external organisation, please write to info@chem-academy.com.
- 6. Final Clauses**  
The contract is subject to the German law. Area of jurisdiction is Bernau bei Berlin, Germany.

### Brexit and Chemicals Regulation

I would like to register:

<input type="checkbox"/>	<b>On site</b> 11-12 October 2021	Early Bird 1.695 €	Regular Price 1.995 €
--------------------------	--------------------------------------	-----------------------	--------------------------

<input type="checkbox"/>	<b>Online</b> 11-12 October 2021	Early Bird 1.395 €	Normalpreis 1.695 €
--------------------------	-------------------------------------	-----------------------	------------------------

Unfortunately, I am not able to participate at the conference.  
Please send me more information via Email.

### E-Mail

The early bird discount is valid until 30 July 2021. After that, the normal prices apply. **All prices plus VAT.**
