

300€

Early Bird until
17th July 2026

12th International Conference

Endocrine Disruptors

www.chem-academy.com

Graphic Recording Endocrine Disruptors Conference 2017

Presenting Institutions and Companies

- Elise Grignard, PhD, OECD Environment
- ZhiChao Dang, PhD, RIVM National Institute for Public Health and the Environment, The Netherlands
- Dr Christian Unkelbach, Federal Office for Chemicals (BfC), Federal Institute for Occupational Safety and Health (BAuA), Germany
- Dr Jürgen Arning, German Federal Environment Agency
- Prof Dr Lennart Weltje, BASF SE, Germany
- Dr Volker J. Soballa, Evonik Industries AG, Germany
- Darren Abrahams, Steptoe LLP, Belgium
- Dr James Wheeler, Corteva Agriscience, The Netherlands
- Teresa Bernheim, LANXESS Deutschland GmbH, Germany
- Graeme Taylor, Endure Consulting, United Kingdom
- Prof Taisen Iguchi, National Institute for Basic Biology, Japan
- Dr. Christian Kirchnawy, OFI – Austrian Research Institute for Chemistry and Technology, Austria
- Dr Melanie Lichtenberger, ibacon GmbH, Germany
- Julie Krzykwa, Ph.D., HESI Global, USA

Key Topics

- EU Regulation of Endocrine Disruptors
- Global frameworks and requirements
- Endocrine Disruption and CLP
- New Approach Methodologies: Experiences with NAMs
- Key aspects from the OECD's work on EDs

14th and 15th September 2026

Berlin, Germany, and online

Presented by

www.chem-academy.com/endocrine-disruptors

Monday, 14th September 2026

8.30 Registration and Coffee

9.00

Opening Remarks

Dr Bjoern Nehls, Director, Chem-Academy, and

Dr Volker J. Soballa, Vice President, Head of Product Stewardship, Corporate ESHQ, Evonik Industries AG

9.10

European Chemicals Regulation Within Global Challenges

- Regulatory initiatives and insights: where does the EU go?
- Competitiveness from a European point of view
- Impact of the REACH revision being abandoned
- The concept of global harmonization: under pressure?
- How does the economic state of play affect European regulation?

Dr Volker J. Soballa, Vice President, Head of Product Stewardship, Corporate ESHQ, Evonik Industries AG, Germany

9.50

Endocrine Disruptors: From EU to Domestic Regulation

- ED regulation within the EU, and its impact on domestic initiatives
- Phasing out animal testing
- Requirements related to CLP
- Upcoming changes

Dr Christian Unkelbach, Federal Office for Chemicals (BfC), Federal Institute for Occupational Safety and Health (BAuA), Germany

10.30 Coffee break

11.00

OECD Work for Identifying and Classifying EDs

- Endocrine disruptors under the Globally Harmonised System of Classification and Labelling
- Method validation and improvement
- The role of NAMs and what is key to their acceptance

Elise Grignard, PhD, Policy Analyst, OECD Environment

11.40

Endocrine Activity and Endocrine Disruption: Research on Articles

- Current projects and the are articles it's focussed on
- Active vs disrupting properties
- Which materials require further investigation
- How does science transform into regulation?
- Remaining uncertainties and what can be done

Dr Christian Kirchnawy, Team Leader, OFI – Austrian Research Institute for Chemistry and Technology, Austria

12.20 Lunch break

13.50

Endocrine Disruptors: Legislation and Interrelations

- The legal framework within the EU: ED regulation and how it connects to different interfaces
- REACH and its impact on ED regulation
- ED regulation and its impact on CLP
- Enhancing science within legislative processes

Darren Abrahams, Partner, Avocat, Barrister, Steptoe LLP, Belgium

14.30

Alternative Methods: Establishing NAMs

- Projects with NAMs on safety assessments
- Regulatory and study requirements
- Experiences with different stakeholders so far
- Case study: assessing endocrine activity in aquatic vertebrates in the absence of in vivo data
- How to apply NAMs in regulatory decision-making, and what gaps need to be closed

Julie Krzykwa, Ph.D., Scientific Program Manager, HESI Global, USA

15.10

Coffee break

15.40

How Industries are Perceived by the Public

- A consultant's point of view: chemicals, crop protection, and related industries in the media
- Social demands and why we need industrial services
- How reputation can be measured and why reputation is valuable
- What are the limits set by public perception of these industry branches?
- Why we need sober science as a driver

Graeme Taylor, CEO, Founder of Endure Consulting, and Partner, EU Focus Group, United Kingdom

16.20

How Industries are Perceived by the Public

- The regulatory framework(s) on ED assessment
- The EDSP: aims and the current state of affairs
- The EPA's expectations on testing
- The role of NAMs
- Research activities and recent learnings

Dr Scott Lynn, Endocrine Disruptor Screening Program, Environmental Protection Agency (EPA), USA

17.00 Chairman's Closing Remarks

17.10 End of Day 1

Tuesday, 15th September 2026

8.45

Chairman's Opening Remarks

Dr Volker J. Soballa, Head of Product Stewardship, Corporate ESHQ, Evonik Industries AG

8.50

Japan's Regulation on Endocrine Disruptors

- Understanding endocrine activity and adversity
- Japan's regulatory strategy and research projects
- Questions to be dealt with
- Update on testing requirements and animal welfare
- The Japanese Chemical Substances Control Law: Environmental risk assessment

Prof Taisen Iguchi, National Institute for Basic Biology, Japan

9.30

Amphibian Assays for Identification and Classification of Thyroid-Disrupting Chemicals: Developments and Challenges

- Main advances and ongoing challenges in this area relating to amphibian assays
- How can they be used for regulatory purposes?
- Conclusions on the human health field

ZhiChao Dang, PhD, Senior Risk Assessor, RIVM National Institute for Public Health and the Environment, The Netherlands

10.10 Coffee break

10.40

Assessing Endocrine Disruption – Ecotoxicological Insights

- Ecotoxicology: current research and gaps to close
- What's the role of ecotoxicology for the assessment of potentially endocrine disrupting chemicals?
- Understanding and integrating population-level effects
- Adversity vs activity
- Methods and study requirements: the EU vs US and Asia?
- Reducing animal testing: concepts and their practical limits

Prof Dr Lennart Weltje, Senior Regulatory Scientist, BASF SE, Germany

11.20

Research Methods and ED Related Projects

- Decision logic for assessing the reliability of data
- Conclusions for interpreting data
- Case study on Amphibian Metamorphosis Assay (AMA) and Fish Short Term Reproduction Assay (FSTRA) dietary restriction studies
- Thoughts on the use of NAMs
- How to set up endocrine screening protocols
- Learnings from ECETOC's ED related research

Dr James Wheeler, Global Regulatory Ecotoxicologist, Corteva Agriscience, The Netherlands

12.00 Lunch break

13.20

ED Criteria Under CLP

- The assessment of endocrine disruptors under European regulations
- Hazard classes within the CLP regulation
- UBA's work within the ERGO project
- How does the project trickle down to regulation and guidances?
- Research gaps and further needs

Dr Jürgen Arning, IV 2.3 Chemicals, German Federal Environment Agency

14.00

Challenges with the Harmonized Hazard Classification from the Industry's Point of View

- Compiling data for hazard assessments
- Hazard classes and CLP: practical aspects
- Impact on interfaces within the product stewardship
- Limits to harmonization...
- ... and how to deal with them

Teresa Bernheim, Corporate Communications, Manager Chemicals Policy, LANXESS Deutschland GmbH, Germany

15.10

Endocrine Disruptors: Testing

- The range of studies for testing potential EDs
- Methodological requirements: the OECD Conceptual framework for Testing and Assessment of Endocrine Disrupting Chemicals
- Project management and timelines
- Current bottlenecks with study capacities
- Cost management
- Experiences with study models

Dr Melanie Lichtenberger, Managing Director, ibacon GmbH

14.40 Coffee break

Group Discount

There are more people in your company interested in our event?
Benefit from our attractive offer for group bookings! If you register 2 or more people at once for a minimum of 2 days you will save 400€ respectively starting with the second delegate.

15.50 Chairman's Closing Remarks

16.00 End of the Conference

Graphic-Recordings

You can find all previously visualized conferences on our website: www.chem-academy.com/graphic-recordings

Individual accomodation and travel are not included in the registration fee.
 Please arrange your own bookings respectively.

Endocrine Disruptors

I would like to register:

☐	On site	Early Bird	Regular Price
	14-15 September 2026	1.695 €	1.995 €

☐	Online	Early Bird	Regular Price
	14-15 September 2026	1.595 €	1.895 €

☐ Unfortunately, I am not able to participate at the conference.
 Please send me more information via Email.

E-Mail

The early bird discount is valid until 17th July 2026. After that, the regular prices apply. All prices plus VAT.

Technical Requirements

For our online conferences we use Cisco WebEx (www.webex.com), one of the leading providers for online meetings. You will receive all helpful information on installation and implementation as well as the necessary access data from us via email.

Terms and Conditions

1. Registration

Registration is confirmed in writing by the organisers. The registration fee covers attendance at the lectures for the number of days selected, full documentation, entrance to the exhibition area, lunch and refreshments. VAT has to be added. Important note in terms of late payment: As mentioned in the registration form all payments must be received within the due date given in the invoice. If you assume that your company is not able to manage payment in-time by bank transfer, please provide your credit card details in order to guarantee your booking. This helps to avoid any inconvenience upon your arrival at the event. At that time the full amount of the payment must be received in our accounts at latest. Thank you very much for your co-operation.

2. Cancellations

Cancellations of a registration by a delegate has to be received in writing at least 30 days prior to the event and will be subject to a service charge of 200 Euro. Substitutions are acceptable at any time. Where cancellations are received later, the registration fee remains payable in its entirety. In case the event has to be cancelled by the organiser payments already received will be credited for the following year's event.

3. Copyright

All material (documents, photos etc.) issued in connection with the events are copyrighted. Duplications and otherwise use must be authorised in writing by b2b-events.net. You may use personal cameras and video cameras for private use only. Professional photography and recording equipment are not permitted. With your attendance you consent to being photographed, filmed and recorded. Unless otherwise agreed with b2b-events.net, you consent to b2b-events.net and third parties using images and recordings of you for broadcast, publication and licensing without compensation or acknowledgement.

4. Liability

It may be necessary for reasons beyond the control of the organiser to alter the content or the timing of the programme or to cancel the event. The organiser of the event is not liable to pay any compensation or damages resulting from alteration, cancellation or postponement of the event. The organiser will do the utmost to inform the delegates of such modifications as early as possible, but is especially not liable if higher force or unforeseen incidences are affecting the meaningful implementation of the event. Force majeure includes: armed conflicts, civil strife, terrorist threats, natural disasters, political constraints, significant influence of transport, etc.

5. Data Protection

The organiser gathers and processes data in accordance with data protection laws. Your data is stored electronically for the purpose of future updates of our services. If you wish your data to be amended, removed or not passed to an external organisation, please write to info@chem-academy.com.

6. Final Clauses

The contract is subject to the German law. Area of jurisdiction is Bernau bei Berlin, Germany.
